

State Procurement Office Upcoming Changes to the SPO Website

- You may access the Contracts Database Reporting System (CDRS) and the RFP Website (RFPW) from the same web page.
- SPO is planning some changes to the website that will affect both the RFPW and the CDRS.
- The look of the RFP data entry pages will change. It will look more like this web page. The way it functions will be essentially the same.
- The URLs for the CDRS and the RFPW will change. Because they will change, do NOT include a direct URL in RFPs or documents you are issuing at this time. Use the following instead:

To access the **RFP Website**:

Go to: www.spo.hawaii.gov, click “Health and Human Services...” and “RFPs.”

To access the **Contracts Database**:

Go to: www.spo.hawaii.gov, click “Health and Human Services...” and “Awards” and “Contracts Database.”
